

Taha Ali

SOFTWARE DEVELOPER

Profile

Experienced Freelancer with 2 years in software development and a focus on Python, Java, and JavaScript. Adept at backend software development, APIs, and Minecraft modding. Skilled in Bukkit/Spigot configuration, Minecraft networks setups, and Pterodactyl panel configuration. Proven ability in system administration and a strong track record on platforms like Fiverr and UpWork. I am prepared to leverage my diverse skill set and hands-on experience to excel as a Software Developer.
